BEYOND THE PANDEMIC: HOW TO NAVIGATE THE GLOBAL AFTERMARKET SUPPLY CHAIN

Presented by: Automotive
Aftermarket Suppliers
Association & The National
Institute for World Trade

SPEAKER:
THOMAS COOK
CEO, Blue Tiger
International

2 PM EDT
MARCH 16
Wednesday

- The Covid-19 pandemic has immersed us in a world of delays, cost, and uncertainty, impacting our supply chains and our companies' bottom lines. What lies ahead? How can we turn impact into opportunity even as new challenges arise (inflation, continued delays, and more)?
- In **Beyond the Pandemic** we'll share our predictions and how to plan accordingly. We'll discuss solutions for mitigating the impact of supply chain costs including alternate sourcing, INCO terms, demand planning, freight consolidation, and managing landed costs. We'll take a deep dive into tariff mitigation: Foreign Trade Zones, bonded warehouses, tariff engineering, drawback and domestic distribution.
- This free, interactive webinar has been extended to 90-minutes: join us to gain forward-looking insight, understand your options, and get your questions answered. Learn how to navigate the global aftermarket supply chain and turn your challenges into opportunities.
